

MULUNGUSHI UNIVERSITY

OFFICE OF THE DEAN OF STUDENTS

CALL FOR BLOOD DONATION - UNIVERSITY COMMUNITY

My office has witnessed firsthand the profound impact that small acts of humanity can have on society. Today, we appeal to each one of you to extend a hand—quite literally—to save a life.

On **Wednesday, 29th October 2025**, Mulungushi University, in collaboration with the **Zambia National Blood Transfusion Service**, will host a **Blood Donation Drive** at **Main Campus Main Administration Building and the lawn adjacent to the Old Dinning Hall**. This is not merely an event—it is an opportunity for us, as a learning and caring community, to contribute to the national blood bank and ensure that hospitals have the life-saving resources they need.

Remember: **One pint of blood can save up to three lives**. Whether you are a student, lecturer, staff member, or visitor, your participation can make a lasting difference.

We urge you to come forward, bring a friend, and be part of this noble cause. Together, let us embody the spirit of service, compassion, and responsibility that defines Mulungushi University.

Let us give the gift of life—because tomorrow, it could be someone we love who needs it.

With appreciation and encouragement,

Francis Lungo
